Dear JBBA Members,

It's hard to believe that another year has gone by and the 2013 National Convention is fast approaching. I hope everyone is eager to join me at the Junior Beefmaster Breeders Association (JBBA) Convention and National Show in Bryan/College Station, Texas from July 23-27, 2013. There are many activities to choose from including: the national heifer show, the bred and owned show, the bull show, the steer show, Advancer Heifer Show and showmanship. Also, don't forget the herdsman quiz, public speaking contest, judging contest, autograph contest, photograph contest, power point contest, family fun night, leadership conference and last but not least the dance and banquet. We will be touring the Texas A&M Rosenthal Meat Science Center, as well as having a showmanship clinic this year. Exhibitors are eligible to become All-Around Champions and win a \$1,000 heifer certificate. If you are a senior member remember to fill out the scholarship forms you are interested in, they can be found at www.Beefmasters.org on the juniors page or by contacting the BBU office. Deadlines will be coming up soon so don't delay on checking these out. I would also like to encourage those members who are 15 and older to run for the JBBA Board of Directors. This is a wonderful way to represent and support this great organization. I am excited and can't wait to see you at the JBBA National Show this year. All that's left to do is send in your registration form and fees and prepare for contests. If you need my assistance on anything feel free to contact me. I hope that this will be the best junior nationals yet.

Sincerely,

Michael Buckley
JBBA President

XIII. NATIONAL JBBA STEER SHOW RULES

The goal of purebred cattle breeders should be to produce seedstock sires for the commercial industry that will improve the overall performance and carcass merits of the cattle. Cattle must first be selected to survive and reproduce in the environment in which they are raised, but following weaning, they must also perform well in the feedlot and hang up a desirable carcass for the packer and provide a pleasurable dining experience for the consumer. Only a handful of JBBA and/or purebred breeders have ever followed their cattle through the feedlot and harvesting phase so they really don't know what they have to offer the commercial producer. Thus, the JBBA steer project allows you to know the performance and carcass characteristics of the cattle you are showing.

SUPERINTENDENT: BBU FIELD SERVICE REPRESENTATIVE (S)

- Steers must be owned by the JBBA member and have DNA RESULTS on file with the BBU Office on or before April 1, of the show year. (Note that it takes approximately 30 days to get results back from the DNA lab.)
- Steers must be born between January 1 and December 31 of the year prior to the show year and weigh a minimum of 900 pounds on check in date. Any steer weighing less than 900 pounds will be shown in a prospect steer show but will not be eligible for overall awards.
- All steers will be weighed and ultra-sounded for carcass data collection (fat thickness, ribeye area and intramuscular fat).

- Each animal will be presented in the showring in its natural conformation. Use of artificial tailheads is not permitted. No artificial filling. The use of a coloring agent, glue or powder is prohibited. Use of these products will result in the immediate disqualification.
- All steers must be out of a registered Beefmaster sire and dam.
- All steers must be stalled in the barns and shall not leave the show grounds or stalling area other than for checking in, ultrasounding or showing. No steer will be permitted to be in the tie outs, parking lot or in the trailer area after checking in for the show.
- Exhibitors must present registration certificates at check-in. Show officials will check the steers' tattoos to ensure they are legible and match the registration papers.
- The ultrasound technician (judge) will not be allowed to judge the haltered steer show.
- All JBBA rules regarding fitting, hair length, etc. will apply to the steer show. Steers must follow the same hair rules as the heifers and bulls.
- All JBBA rules regarding alteration or modification of animal will apply to the steers.
- All General Rules, Regulations, Terms and Conditions for JBBA Shows will apply to this show.

Haltered Steer Show Contest Rules

1. Steers must be registered Beefmasters to compete.
2. Show officials will break classes by weight. Weight classes will be divided as equally as possible into light, medium and/or heavy. There must be at least six steers in a division to have a weight class break (for example, seven steers could be divided into a class of three lightweights and a class of four heavyweights).
3. Ultrasound data will be accessible to the judge, if requested, to place animals in the haltered show.
4. Exhibitors that have previously been awarded a scholarship may not receive the same scholarship twice. In the event that an exhibitor whom has already been awarded a scholarship achieves a placing that qualifies for the same award the scholarship will be given to the next highest placing eligible exhibitor.
5. Proof of college enrollment must be received by the scholarship coordinator before scholarship monies will be released to the recipient's educational institution of choice. An Official Transcript must be sent to the JBBA office to receive scholarship money.

• Awards to be presented:

1. **Live Animal Show Division Champions and Reserve Champions**
2. **Ultrasound Division Champions & Reserve Champions**
3. **Overall Division Champions and Reserve Champions**
4. **Overall Live Animal Show Champion and Reserve Champion.**
5. **Overall Ultrasound Carcass Champion and Reserve Champion.**
6. **Overall Champion and Overall Reserve Champion.**

• All steer exhibitors will be required to compete in a project interview in addition to having all of their animals ultrasounded for carcass composition and showing all of their steers at halter in the show ring. Following is the breakdown of scoring to be used for the overall champions in each division as well as the overall champions.

A. Interview Score – Accounting for 20% of the total score.

1. Each exhibitor will be interviewed on the overall selection, feeding, showing, yield grading, quality grading, etc. of their steer project. Exhibitors will be ranked/placed from highest to lowest interview scores.

B. Live Animal Show Placing – Accounting for 30% of the total score.

1. Steers will be divided into and shown in weight classes (light, medium and/or heavy) classes as equally as possible. The steer judge will place individuals in their respective class as well as an overall ranking.

C. Ultrasound Carcass Results – Accounting for 50% of the total score.

1. All carcass data will be generated from ultrasound measurements taken by an Ultrasound Guidelines Council (UGC) certified ultrasound technician.
2. **NO** animals will be harvested for carcass data collection; however, carcass data will be derived from the ultrasound measurements by initially ranking the steers using the USDA Yield Grade Equation: $USDA\ YG = 2.5 + (2.5 \times \text{fat thickness} + (0.2 \times \text{estimated \%KPH Fat (2.5\%))} - (0.32 \times \text{ribeye area}) + (0.0038 \times \text{hot carcass weight (assume 62\% of Live weight)}))$.
3. The numerical yield grade derived from this formula will then be adjusted for ultrasonic ribeye area (REAU), ultrasonic fat thickness (FTU), hot carcass weight (HCW) and ultrasonic quality grade (%FATU) using the following adjustment factors for the final BEEF CARCASS INDEX (BCI) to determine Champion and Reserve Champion Beef Carcass. The lowest BCI animal will win.

Ultrasonic Ribeye Area - REAU (in.²) Adjustment to BCI

> 16.5	+ .50
16.0 – 16.5	- .30

.41 - .50	0.0
.51 - .60	+ .40

5.00 – 5.99 (High Choice)		-1.0
4.51 – 4.99 (Avg. Choice)		-.80
4.00 – 4.50 (Low Choice)		-.50
3.50 – 3.99 (High Select)		0.0
3.00 – 3.49 (low Select)	+1.0	
< 3.00 (Standard or less)		+2.0

• The overall champion and reserve champion will be determined by the lowest final score tabulated as follows: (exam score ranking X 0.20) + (live animal show ranking X 0.30) + (BCI ranking X 0.50). Tabulated final score ties will be broken by using the following values (listed in order of priority): PYG, QG, exam score and/or live animal ranking.

• Tail switch hair samples will be pulled from every steer exhibited for DNA validation of parentage. Animals failing to parent verify to the assigned pedigree will be disqualified from the show and the exhibitor must forfeit all awards.

****NOTE****

- For Junior Nationals, all steers will be required to be DNA tested, so keep in mind when buying steers for next year that both their parents and the steer itself need to have DNA test kits sent into the BBU office if they aren't already on file.
