Beefmaster Ear Tag Program

The Beefmaster Breeders United (BBU) ear tag program is designed to add more value to your high quality Beefmaster and Beefmaster cross calves. These “Original Z1 No-Snag-Tag” one-piece Z Tags are available through the BBU office and they will help identify the calves you sell as being Beefmaster and/or Beefmaster influenced animals.

Superior retention. Foolproof one-piece ear tag design ensures that back of tag will not snag and pull out or break off. No more torn ears.

Outstanding readability. Dark laser printing and long neck calf tags make Z Tags easier to read from front or back.

Easier application. Patented Z1 No-Snag-Tagger is designed for fast and easy tagging. Unique pivoting Z1 No-Snag-Tagger pin makes loading ear tags easy while eliminating ripped ears.

Reduced risk of infection. Exclusive self-piercing tag tip makes a clean, precise incision to prevent infection and promote faster healing.

Beefmaster Ear Tag Program benefits include:

- Breed identification anywhere, anytime
- The front of the tag is available for you to write your own ID numbers.
- Potential to increase market value
- Provides advertisement for the Beefmaster breed

Ear tags are currently available through contacting the BBU office at 210-732-3132. These Beefmaster ear tags cost \$1.75 each plus shipping. Please note that these tags are one-piece Z Tags and require a specific tagging gun. The minimum ear tag order is 25 tags and the ear tags will be shipped when payment is received.

For more information please contact the BBU office at 210-732-3132 or memberservices@beefmasters.org
